CORAM:

HON'BLE MR. JUSTICE J.R. MIDHA

ORDER

% 31.08.2020

1. The hearing has been conducted through video conference.

2. This Court formulated the Claims Tribunal Agreed Procedure vide order dated 21st December, 2009 which was modified from time to time. The Modified Claims Tribunal Agreed Procedure (MCTAP) is part of the order dated 07th December, 2018.

3. Upon extensive research done by the Law Researcher attached to this Court, it has come to the notice of this Court that law in many developed countries provide for mandatory formats to be filled up in motor accidents cases for their expeditious disposal. The particulars of the relevant formats in the developed countries are as under:-

S. No Country Place/ Statue/ Form/Annexure Hyper Link Authority Applicable Rules /Appendix/ Affidavit

1. USA New York, New York Consolidated MV-104 - Report of 1. <https://dmv.ny.gov/forms/m> Department of Laws, Vehicle and Motor Vehicle Accident - v104.pdf Motor Traffic Law - Title 6- Required to be filed with Vehicles Accidents and Accident DMV by all drivers 2. <https://cmvny.com/wp->

4. It has also come to the notice of this Court that the Transport Research Wing (TRW) of Ministry of Road Transport and Highways has devised 'Road Accident Recording & Reporting Formats' to be furnished by all State Police Departments to the Ministry of Road Transport and Highways. The Ministry has devised 18 formats in following five sections:

(i) Accident Identification Details

(ii) Road Related Details

(iii) Vehicles Involved in Accident

(iv) Drivers Details

(v) Persons Other than Drivers Involved in Accident

5. The D.O. letter dated 22nd December, 2017 issued by the Transport Research Wing (TRW) of Ministry of Road Transport and Highways to the Director General of police of all the States is reproduced hereunder:

"KIRTI SAXENA, Government of India SENIOR ADVISER (TRW) Ministry of Road Transport & Highways (Transport Research Wing) D.O. No.MR-16023/4/2016-TRW(RT) Dated: 22.12.2017 Dear Sir/Madam, I am directed to convey that the decision of Ministry of Road Transport & Highways (MoRTH) on the slightly revised Road Accident Recording & Reporting Formats to be adopted in the context of data furnished by State Police Department of calendar year 2018.

2. You may kindly recall my previous D.O. of even number dated 23.2.2017 regarding the MoRTH approved uniform road accident Recording Format to be adopted by the Police in all States/UTs from 2017, with a corresponding set of annual road accident Reporting Format (17 Forms) and also a series of workshops to familiarise police personnel.

3. The revision is a result of the deliberations and feedback of the Police personnel attending the National and 5 regional workshops on dissemination of the above format, organised by the Ministry in the months of April & May, 2017 at the IITs.

4. The revised Recording Format with following 5 sections have deleted/added some of the items in the section:

A. Accident Identification Details B. Road Related Details C. Vehicles Involved in Accident D. Drivers Details E. Persons Other than Drivers Involved in Accident

5. The revised Reporting Format will now have 18 Forms.

6. The individual recording formats are to be aggregated at the State Police Head Quarters level and forwarded to the Transport Research Wing (TRW) of Ministry of Road Transport & Highways in the Reporting Format (18 Forms), at the end of a calendar year.

7. I am forwarding herewith a copy of both the revised Formats (copies enclosed) for urgent dissemination to the concerned police personnel at the district, sub-division and thana level.

8. The revised formats have been uploaded on the Ministry's website and can be accessed from the link <http://morth.nic.in>.

9. Instructions for police personnel explaining road accident terminology and road engineering terms are also placed on the Ministry website.

10. As much depends on the efforts made by the States to have a reliable road accident data collection/reporting system, I would request you to kindly issue instructions for adoption of the format for recording road accident data of calendar year 2018.

Yours sincerely, Encls. : Annexures I & II sd/-

(Kirti Saxena) D.G. (Police)/Addl. D.G. (Traffic) of all States/UTs"

6. This Court is of the view that it would be appropriate to incorporate the benevolent provisions in the formats of the developed countries and the formats devised by Ministry of Road Transport and

Highways, in the formats developed by this Court. Copy of the D.O. letter dated 21st December, 2017 and the 18 formats are annexed to this order as Annexure A.

7. Transport Research Wing (TRW) of Ministry of Road Transport and Highways is impleaded to these proceedings. Mr. Kirtiman Singh, learned Standing Counsel for Central Government, is directed to accept notice on behalf of Ministry of Road Transport and Highways.

8. Transport Research Wing (TRW) of Ministry of Road Transport and Highways is requested to undertake this task and submit their a report through Mr. Kirtiman Singh, learned Standing Counsel for Central Government.

9. Mr. Vikas Pahwa, Senior Advocate, who was representing Delhi Police during 15th April, 2009 to 24th September, 2010 shall assist this Court as Amicus Curiae. Mr. Rajshekhar Rao, Advocate, who is representing Delhi High Court in many important matters, shall also assist this Court as Amicus Curiae.

10. Mr. Sidharth Luthra, learned Senior Advocate and Mr. Satyam Thareja, Advocate, shall continue to assist this Court as amicus curiae in this matter.

11. Mr. Rahul Mehra, learned Senior Standing Counsel for Delhi Police; Mr. Kirtiman Singh, learned Standing Counsel for Central Government; and learned amicus curiae shall give their written suggestions to make the formats developed by this Court more comprehensive.

12. The competent Officer of Transport Research Wing (TRW) of Ministry of Road Transport and Highways shall remain present on the next date of hearing through video conference.

13. List on 09th September, 2020.

14. The order be uploaded on the website of this Court forthwith.

Ministry of Road Transport & Highways ~ ~ q Rq !31 ~tTR fcr:rrlT KIRTI SAXENA (Transport Research Wing) SENIOR ADVISER (TRW) ~.tf.~. f61fW5~1 . \l'Wt'i~l'< ~ Telefax : 011-23389017 ~11!3\J1!31 m. ~ ~ -110 011 I.D.A., Building, Jamnagar, House, Shahjahan Road, New Delhi-11 0 011 D.O. No.MR-16023/4/2016-TRW (RT) Dated: 22.12.2017 Dear Sir/Madam, I am directed to convey the decision of Ministry of Road Transport & Highways (MoRTH) on the slightly revised Road Accident Recording & Reporting Formats to be adopted in the context of data furnished by State Police Department of calendar year 2018.

2. You may kindly recall my previous D.O. of even number dated 23.2.2017 regarding the MoRTH approved uniform road accident Recording Format to be adopted by the Police in all States/UTs from 2017, with a corresponding set of annual road accident Reporting Format (17 Forms) and also a series of workshops to familiarise police personnel.

3. The revision is a result of the deliberations and feedback of the Police personnel attending the National and 5 regional workshops on dissemination of the above format, organised by the Ministry in the months of April & May, 2017 at the IITs.

4. The revised Recording Format with following 5 sections have deleted/added some of the items in the section :

A. Accident Identification Details B. Road Related Details C. Vehicles Involved in Accident D. Drivers Details E. Persons Other than Drivers Involved in Accident

5. The revised Reporting Format will now have 18 Forms.

6. The individual recording formats are to be aggregated at the State Police Head Quarters level and forwarded to the Transport Research Wing (TRW) of Ministry of Road Transport & Highways in the Reporting Format (18 Forms), at the end of a calendar year.

7. I am forwarding herewith a copy of both the revised Formats (copies enclosed) for urgent dissemination to the concerned police personnel at the district, sub-division and thana level.

21....

8. The revised formats have been uploaded on the Ministry's website and can be accessed from the link: <http://morth.nic.in>.

9. Instructions for police personnel explaining road accident terminology and road engineering terms are also placed on the Ministry's website.

10. As much depends on the efforts made by the States to have a reliable road accident data collection/reporting system, I would request you to kindly issue instructions for adoption of the

format for recording road accident data of calendar year 2018.

Yours sincerely, Encls. : Annexures I & II \~(= (~ (Kirti Saxena) D.G. (Police)/AddL D.G. (Traffic) of all States/UTs ROAD ACCIDENT RECORDING FORM A. Accident Identification Details

1. FIR No. 2. Time of accident 3. Date of accident D D M M Y Y

4. Name of Place 5. Police Station

6. District 7. State

8. Type of Area Urban Rural

9. Accident Type Fatal Grievously injured (Hospitalised) Minor injury (not hospitalised) Non-injury

10. No. of persons killed No. of persons grievously injured No. of persons minor injured

11. No. of Motorized vehicle involved No. of Non-motorized vehicle involved No. of pedestrian involved

12. Type of Weather Sunny/Clear Rainy Foggy/Misty Hail/Sleet Others (Specify)

13. Hit & Run Yes No

14. Type of Collision (A) Vehicle to Vehicle Vehicle to Pedestrian Vehicle to Bicycle Vehicle to animal Hit parked vehicle Hit Fixed/stationary object (B) Hit from back Hit from side Run Off Road Vehicle overturn Head on collision Others (Specify) B. Road Related Details

15. Road Name 16. Road Number

17. Landmark 18. Chainage

19. GPS Location Latitude Longitude

20. Lanes 2 Lanes or less More than 2 Lanes

21. Surface Condition Paved Unpaved

22. Road Type (A) Expressway National highway State highway Other roads (B) Urban Non urban

23. Physical Divider Yes No

24. Ongoing Road Works/ Construction Yes No

25. Speed Limit < 40 40 - 60 60 - 80 >80 Not available

26. Accident Spot Residential area Institutional area Market/commercial area Open Others (specify)

27. Road Features (A) Straight road Curved road (B) Bridge Culvert None (C) Pot Holes Yes No (D) Steep gradient Yes No

28. Road Junction (if applicable) T Junction Y Junction Four Arm Junction Staggered Junction Round About Junction

29. Type of Traffic Control (if applicable) Traffic Light Signal Police Control Stop Sign Flashing Signal/Blinker Uncontrolled

30. Pedestrian infrastructure (if applicable) (A) Footpath Yes No (B) Foot Bridge/ Subway Yes No (C) Zebra Crossing Yes No Chainage: This is the distance measured along the road centre line from a clear start point of the road. NHAI or PWD can provide this information. GPS Location: Global Positioning System (GPS) device can provide the exact location of a point. A GPS device can give latitude and longitude of a location. This is used to mark the location on a digital map.

C. Vehicles Involved in Accident:

Vehicle Sl. No. ('31')	Type of Vehicle ('32')	Registration No. ('33')	Disposition ('34')
--------------------------------	--------------------------------	------------------------------	-------------------------

Coding Instructions:

No. '32'

1. Motorised Two Wheeler
2. Auto Rickshaw
3. Car/Jeep/Van/Taxi
4. Bus
5. Truck/Lorry

No. 40 from Road Accident Recording Form Obtain from Item No. 54 from Road Accident Recording Form Instructions for filling Road Accident Recording and Reporting Form I. Road Accident Recording Format Introduction The Road Accident Recording Form is designed to record all relevant information from a road accident in a comprehensive and systematic manner. This form is designed to help the Police compile the mandated Road Accident Reporting Form. The format covers a detailed account of the accident such that this information may be useful for identifying and implementing relevant intervention. The format has been divided into five segments:

1. Accident Identification Details

2. Road Related Details

3. Vehicles Involved in Accident

4. Drivers Details

5. Persons Involved in Accident (other than driver) This document is a guide to understanding and filling of Road Accident Recording Form. A Road Accident is an accident (collision, overturning or slipping) which occurred or originated on a road open to public traffic resulting in either injury or loss of life, or damage to property, in which at least one moving vehicle is involved.

Definition of Terms in Road Accident Recording Form

1. FIR Number: The FIR Number of the reported and registered accident.

2. Time of Accident: The Time at which the accident occurred.

3. Date of Accident: The date at which the accident occurred.

4. Name of Place: The name of the locality at which the accident occurred.

5. Police Station: The name of the Police Station under whose jurisdiction the accident occurred.

6. District: The name of the district at which the accident occurred.

7. State: The name of the state at which the accident occurred.

8. Type of Area i. Urban: Any location which falls under metropolitan city or a municipality. ii. Rural: Any location which falls under panchayat or gram panchayat

9. Accident Type i. Fatal: An accident in which one or more persons are killed. ii. Grievous (Hospitalised): An accident in which none of the victims are killed however at least one person has sustained one or more serious injuries such as fractures, internal body injury, severe general shock,

unconsciousness and needs hospitalisation for medical treatment. iii. Minor (Not Hospitalised): An accident in which none of the victims were killed nor were any victim hospitalised. However, at least one of the victims has slight injury and requires first aid. iv. No injury: An accident in which were harmed in any way and does not even require a first aid. However, public or private property may have been damaged and requires restoration.

10. Number of Persons i. Number of persons killed: The total number of people who were killed due to the accident.

ii. Number of persons grievously injured: The total number of people who were hospitalised due to the accident. iii. Number of persons with minor injury: The total number of people who were administered first aid but were not hospitalised due to the accident.

11. Number of Motorized/Non-motorised Vehicles Involved i. Number of Motorised Vehicles: The number of motorised vehicle(s) involved in the accident.

ii. Number of Non-Motorised Vehicles: The number of non-motorised vehicle(s) involved in the accident. iii. Number of Pedestrians Involved: Number of persons other than a driver or passenger. Persons in or operating pedestrian conveyance such as perambulator, invalid chair without engine, push cart etc. or pulling a cycle are Pedestrians. Persons attending to a vehicle (e.g. for change or tyre, repairing engine etc.) moving on roller skates, etc. are also pedestrians.

12. Weather: Weather denotes the climatic conditions at the time of accident.. Only one weather condition should be marked. i. Sunny: Sunny day, clear skies, slightly cloudy or cloudy with no impedance to visibility ii. Rainy: Light rain, showers, heavy rain, intermittent rain, the time period just after a rain during which the roads are still wet/slippery. iii. Foggy/Misty: light fog, dense fog, mist or any condition which hampers the visibility by precipitation (whitish and cloud like) iv. Hail/Sleet: hail, sleet, or any weather conditions which reduces the tire friction due to ice formation v. Others: All other weather conditions such as dust storms, night, heavy winds, cyclones etc. The weather under this condition needs to be specified in the space provided.

13. Hit and Run: Any accident in which the impacting vehicle flees the accident location or no information is available about the impacting vehicle, is marked Yes. All other cases are marked No.

14. Type of Collision A. Collision of: This describes the nature of collision for e.g. Vehicle - Vehicle, Vehicle - Pedestrian, etc. Mark all appropriate options. Multiple options may be checked if required.

B. Collision With: This describes the type of Collision. i. Parked Vehicle: If the collision involves a parked vehicle. ii. Hit from Back: If one of the vehicle involved in the accident is hit from back.

iii. Hit from side: If the accident is either a side swipe accident or a right angle accident.

iv. Run off-Road: If the vehicle leaves the carriageway or runs off road. v. Overturned: If any of the vehicles involved in the accident has overturned.

- vi. Hit Stationary Object: If the accident involves only one vehicle which collided with a fixed object.
 - vii. Head on Collision: If the front end of two vehicles hit each other in opposite direction.
 - viii. Others: All others cases.
- 15. Road Name: Name of the Road.
 - 16. Road Number: The number of the road if applicable.
 - 17. Landmark: Nearby landmark which helps in identifying the exact location of the accident site.
 - 18. Chainage: The chainage of the road (can be approximated from the nearest km stone).
 - 19. GPS Location: The latitude and longitude of the accident location to four decimal places precision.
 - 20. No. of Lanes
 - i. 2 lanes or less: If the total number of lanes considering both travel directions is two or less.
 - ii. More than 2 lanes: If the total number of lanes considering both travel directions is three or more. All highways with divided carriageway falls under this category.
 - 21. Road Surface
 - i. Paved- covered with a firm surface like paving stones or concrete or asphalt
 - ii. Unpaved- not covered with a firm surface like gravel road, morum road.
 - 22. Road Type: Road Type describes the category of the road. Check the appropriate road type.
 - 23. Physical Divider: Any physical barriers or railings that separates different lanes of traffic or it separates the road from a reserved area such as medians. If a physical divider is present along the road, then mark Yes. All other cases are marked No.
 - 24. Ongoing Road work/Construction: Any accident which occurs in the vicinity of a road construction/repair zone is marked Yes. All other cases are marked No.
 - 25. Speed Limit: Check the appropriate box if the speed limit of the road is known. Else mark Not Available.
 - 26. Accident Spot: Accident Spot denotes the type of predominant human activity. Only one accident spot should be marked.
 - i. Residential: If majority of the building near the accident location are houses, residential apartments or housing complexes.
 - ii. Institutional: If majority of the building near the accident location are institutions like schools, colleges, hospitals or large government establishments.

iii. Market/Commercial: If the accident location is near a market or business centres.

iv. Open: If the accident location is near an open ground or field. These locations normally do not have any human activities in the vicinity. v. Others: If the accident locations do not fall in any of the above categories then specify the type of location.

27. Road Features A. Features: Check if the road is straight or curved at the location of accident. B. Features: Check if the road has a bridge or culvert at the location of accident. C. Features: Check if potholes are present on the road at the location of accident. D. Features: Check if the location of accident is at a steep gradient (uphill/downhill, ramps, etc.).

28. Road Junction: Check the appropriate junction type if the accident occurred at a junction.

29. Type of Traffic Control (if accident is at a junction): Check the appropriate type of traffic control at the location of accident.

30. Pedestrian Infrastructure: Check the appropriate type of pedestrian infrastructure at the location of accident. If there are no pedestrian infrastructure provided, mark None.

31. Vehicle Serial No.: Vehicle Serial No. is to be recorded as numbers (1,2,3....) to help identify the vehicle involved in the subsequent tables of Road Accident Recording Form.

32. Type of Vehicle: To be filled with the appropriate code given at the end of page 2 of the Road Accident Recording Form.

33. Registration Number: Registration Number of the vehicle if applicable.

34. Disposition: Disposition describes the mechanism used to move the vehicle from the accident site. To be filled with the appropriate code given at the end of page 2 of the Road Accident Recording Form.
